

GIS Development acknowledges major projects from Asian region

New Delhi, August 4th, 2010: At a scintillating ceremony during the Map Asia 2010 Inauguration on 26th July, 2010 at the Kuala Lumpur Convention Centre, Kuala Lumpur, Malaysia, seven winners of GIS Development Geospatial Excellence Award received their trophies. The GIS Development Geospatial Excellence Awards are Asia-Pacific's premier private awards that commemorate excellence in the field of geospatial technology and its applications. It has been conceived to honour the best of geospatial applications to encourage the adoption and furthering of geospatial science and technologies by organisations from the Asia Pacific region. The following organisations were felicitated with the award:

- **The Land Administration and Management Project (LAMP), Department of Environment and Natural Resources, Philippines** - Towards the usage of Geospatial technology for **“Land Administration”**
- **Tenaga Nasional Berhad, Malaysia** – In appreciation of the usage of Geospatial technology for **“Power Distribution”**
- **The Seoul Metropolitan Government, South Korea** - For innovative usage of Geospatial technology for **“Local Government”**
- **The Osaka Gas Co. Ltd. Japan** - For making a remarkable usage of Geospatial technology for **“Utility Services”**
- **The Sujala Project, ANTRIX – ISRO, India** – For the integrated usage of Geospatial technology for **“Rural Development”**
- **The Brunei Shell Petroleum Company, Brunei** - For measurable contribution towards the usage of Geospatial Technology for **“Oil & Gas”**
- **Ministry of Transportation, Indonesia** - For Successfully Implementing Geospatial Technology for **“Transportation”**

About GIS Development

GIS Development promotes and propagates the usage of Geographic Information Science, Technology and Applications in various areas of development, worldwide and Asia in particular. It assists community and government in developing their productivity, policies and management capabilities by facilitating knowledge transfer in the domain of geographic information. It fosters the growing network of those interested in geo-informatics and encourages the exchange of scientific know-how through its key platforms: Magazines, Portal, Conferences and Training.
