

# Geospatial Chaupal

17-18 March 2018  
Ram Ganga Resort, Jim Corbett Park  
Uttaranchal

“  
**Geospatial Information  
Infrastructure and Policy  
Framework is a key  
enabler for socio-economic  
development in digital age.**  
”

## National Geospatial strategy for 'New India 2022'

As the nation prepares to celebrate its 75<sup>th</sup> year of independence with the vision of building a 'New India', a comprehensive, cohesive, coordinated, and conducive national geospatial strategy, encompassing shared vision and values of public authorities, private sector enterprises, academic institutions and users, would lay the foundation for creating a robust geospatial industry and innovation eco-system. This will play a critical role in planning, implementation and monitoring of key national programs and projects, which will enhance productivity and cost effectiveness, leading India into the next phase of transformative journey.

### Saturday, 17 March 2018

12:00 hrs: Arrival of Guests at  
Ram Ganga Resort
