

Bentley joins Map World Forum as Gold Sponsor

28th July 2006, New Delhi, India: Bentley Systems has partnered with Map World Forum as the Gold Sponsor for the conference.

Sharing his views on the Meet, Bhupinder Singh, Managing Director, Bentley Systems India Pvt. Ltd. said, "We are looking forward to participating in the upcoming Map World Forum. As we all are painfully aware, India's infrastructure requirements are dramatically increasing as a result of rapid economic growth. The requirements of a GIS solution for project teams building infrastructure are distinct and are not being satisfied by traditional geospatial applications. Our Advancing GIS for Infrastructure strategy directly addresses these extensive needs, and is aimed at improving the world's infrastructure by leveraging GIS technologies. Bentley was just named the world's No. 2 provider of GIS/geospatial software solutions by a recent Daratech study, and we welcome the opportunity to share our experience and thoughts on key business and technology trends with the forum attendees".

Sanjay Kumar, CEO, GIS Development and Secretary General, Map World Forum expressed his pleasure at this partnership and welcomed Bentley Systems to the Panel of Partners for Map World Forum. Mr. Kumar says, "We are happy that Bentley Systems has partnered with us for Map World Forum. Their presence at the Meet will immensely benefit the attendees."

In addition to being the Gold Sponsor, Bentley Systems is sponsoring a Round Table Meet on "Geo-enabled Engineering: Leveraging GIS data for Infrastructure Projects" as part of Map World Forum. The delegates can view the range of Bentley Systems products and interact with representatives from the company at the Exhibition of the conference.

Companies already partnering for the Forum are Leica GeoSystems and Rolta India as Platinum Sponsors, Digital Globe as Gold Sponsor and Speck Systems as Silver Sponsor.

About Map World Forum

On the occasion of 10 years of Map India series of conferences, GIS Development has launched a global meet of geospatial leaders known as Map World Forum. MAP WORLD FORUM will be a medium of convergence of various stakeholders of global geospatial community and its integration with end users of geospatial information. Map World Forum will be a combination of activities in the form of seminars, workshops and panel discussions covering technology to policy to user oriented themes at global level.

About GIS Development

GIS Development promotes and propagates the usage of Geographic Information Science, Technology and Applications in various areas of development, worldwide and Asia in particular. It assists community and government in developing their productivity,

policies and management capabilities by facilitating knowledge transfer in the domain of geographic information. It fosters the growing network of those interested in geoinformatics and encourages the exchange of scientific know-how through its key platforms: Magazines, Portal, Conferences and Training.
