

What to expect from GeoSmart India and GeoIntelligence Asia 2016

India: Geospatial Media & Communications is gearing up to bring out South Asia's two premier geospatial conferences under one roof. Both the events will be held at India Expo Centre and Mart, Greater Noida, from March 1-3 and March 2-3 2016, respectively. The company has recently released a detailed [agenda](#) for the conferences.

While GeoSmart India 2016 will address the potential of geospatial applications for India's economic development, GeoIntelligence Asia is aimed at bringing together the defense community across the sub-continent. The events will also host the largest exhibition for geospatial technologies in South Asia.

GeoSmart India: For Smart Cities and Digital India

GeoSmart India 2016 (Former India Geospatial Forum) will demonstrate the vital role of geospatial technology in shaping tomorrow's India - adding economic value and social impact to diverse sectors by reducing costs, expanding access to services, delivering more consumer value, and reducing inefficiencies.

The event will host special sessions aimed at topics of importance to Indian governments' plans and mission mode projects on topics such as Smart Cities and infrastructure, agriculture, transportation, electricity, forestry, mining, water resources, etc.

Featured sessions from GeoSmart India 2016

- Geospatial for Smart Cities
- Municipal Commissioners' Conclave
- CIO Forum
- South Asia Geospatial Forum
- GeoInformatics for Digital India
- Geospatial Developers' Forum
- GeoSmart India Awards

The event with over **30 concurrent sessions** is expected to host more than **3,000 delegates, 300 presenters** and **60 exhibitors**.

GeoIntelligence Asia: Geospatial for Modern Warfare

GeoIntelligence Asia (Formerly GeoIntelligence India) with the theme Geospatial for Modern Warfare will be organized as a two day event from March 2 -3, 2016. The event is dedicated to the highest level of geospatial knowledge exchange and networking within the Asian defense and security sector.

The conference aims to bring together some of the most influential speakers and delegates from the Asian and international defense and security establishments.

Featured sessions from GeoIntelligence Asia 2016:

- Space & cyberspace: The final frontiers
- GIS-enabled digital battlefield
- Maritime and coastal security
- Internal security and emergency response
