

Geospatial Media and Communications introduces Global Advisory Board

New Delhi: Location has become fundamental to every human activity and advancements in the fields of Artificial Intelligence, Internet of Things, Robotics and Big Data have been getting integrated with geospatial workflows and processes. This transformation is bringing a collaborative approach to expand the horizon of geospatial applications.

In this background, Geospatial Media and Communications is thrilled to announce its new [Global Advisory Board](#), comprising of eminent thought leaders who are making a significant difference to the geospatial industry as well as global economy and society with their vision and acumen across different segments of the geospatial value chain.

The Global Advisory Board Members will strengthen the vision, mission, values, and principles of Geospatial Media and Communications, which have been evolving along with the changing fabric and scope of the geospatial industry. Their diverse professional insights and personal commitment towards the larger objectives of Geospatial Media and Communications will be instrumental in shaping and supervising its business directions and dimensions.

The Global Advisory Board members are:

- Brett Dixon, General Manager, Asia Pacific, Esri, Singapore
